

# PROJECT CENIT DEMETER

Development of viticultural and enological strategies and methods in the face of climate change. Application of new technologies that improve the efficiency of the resulting processes

DEMETER is a consortium project created to carry out strategic, multidisciplinary and interregional research in the field of viticulture at the national level, with the aim of generating scientific and technical knowledge in the sector to address climate change. The project is structured in 7 areas of knowledge: Transcriptomics, Viticulture, Yeasts, Bacteria, Analysis, Cava and Environment. In addition, new technologies were technologies that would represent a technological leap forward for the sector.

## CONSORTIUM:

- Partners: Bodegas Torres (project leader), Pago de Carraovejas, Bodegas Matarromera, Juvé & Camps, Bodegas Roda, Agrovín, Intranox, Bodegas Protos, Tonelería Magreñan, Unión de Cosecheros de Labastida, Labastida, S.A. Cosecheros de Labastida, Bodegas Bardillo, Dolmar, Bodegas Martín Códax, Gramona Martín Códax, Gramona, Castell d'Encús, Hera Amasa, Lallemand, Ecovitis, Laort, Dominio de la Vega, TDI, Solfranc, Aanzare, Licina and Aecork.

- Collaborating entities: Public University of Navarra, University of La Rioja, University of Salamanca, UPM (Polytechnic University of Madrid). (Polytechnic University of Madrid), University of Zaragoza, University of Valencia, Rovira i Virgili University, University of Girona, Autonomous Girona, Universitat Autònoma de Barcelona, Universidad de Barcelona, Universidad de Cádiz, Universitat de Cádiz University of Barcelona, University of Cádiz, Institut Català del Suro, Centre tecnològic de Manresa, Institut Català de la vinya y del vi, Neiker, Institute of Vine and Wine Sciences (CNB, IFI), National Biotechnology Center of Biotechnology (CSIC), CIDA, Interquímica, Instituto de Tecnología of Agricultural Technology of Castilla y León (ITACYL), Centro de Felipe Research Center, and the Institute of Agrochemistry and Food Food Technology Institute (IATA-CSIC)

# CENIT DEMETER

## GRANT DETAILS:

- Aid: CENIT Program (Consortium of National Technological Research Companies)
- Agency: CDTI
- Type of aid: Subsidy of 45.67% of the budget.
- Budget: 26,912,751.00 euros:
  - Total: 26,912,751.00 euros
  - Pago de Carraovejas: 446,902.00 €.
- Financing:
  - Total: 12.291.057,00 Euros
  - Pago de Carraovejas: 204.100,00 €.

## DURATION:

- Starting date: 01-08-2012
- Finishing date: 31-12- 2014
